HOTEL Arts BARCELONA

Dear valued guest,

I am truly delighted to share some exciting news with you. Over the past year, Hotel Arts Barcelona has been on an inspiring journey of transformation—one that reimagines our spaces to offer you an even more exceptional experience. Today, I write to personally update you on the progress of this vision.

First and foremost, I am thrilled to announce that the redesign of our guestrooms has been successfully completed. The new interiors beautifully capture the spirit of Barcelona, blending comfort, tranquility, and vibrant energy into a harmonious space. We cannot wait for you to experience them firsthand.

As we move forward with this journey, we enter the next phase of our transformation. From October 2025 through September 2026, some of our indoor and outdoor common areas will undergo enhancements, and will therefore be unavailable during this period:

- Lokal Breakfast Restaurant
- The Pantry Restaurant
- P41 Bar
- The Arts Garden
- Marina Infinity Pool
- 43 The Spa & Gym

We understand that change can bring temporary inconveniences, and with that in mind, we have carefully arranged alternative solutions for breakfast, bar, and wellness services to ensure that your stay remains seamless and exceptional. Additionally, you will still be able to indulge in the exquisite offerings of our two Michelin-starred restaurant, Enoteca Paco Pérez, savor the Mediterranean flavors of Marina, and relax by our main pool.

Your comfort and satisfaction is our utmost priority, and we deeply appreciate your patience and support as we bring this exciting vision to life. We look forward to welcoming you during this time of transformation, where our commitment to excellence remains unwavering.

With heartfelt gratitude,

OUR GUESTROOMS

The hotel’s redesigned interiors act as a canvas drawing on the city’s dynamism where fresh forms, colours and inspiration reflect the Catalan flair. Deep Mediterranean blue, sunlit gold and earthy sandstone complement Cerdà grid patterning, textiles and artisanal furnishings, creating sophisticated spaces and elegant accommodation.

Each one of the guestrooms is pleasantly spacious for a city retreat and has been thoughtfully designed to blend tradition and innovation from a creative viewpoint.

Natural light streams in through generous windows, luscious fabrics interplay with custom fixtures and architectural forms reflect the duality of the destination. Prime views target the Med, urban or both, while organic materials add eco conscious credentials to the mix, all of which goes into providing enviable and luxurious comfort.
